

WELCOME TO:

WEZMORE

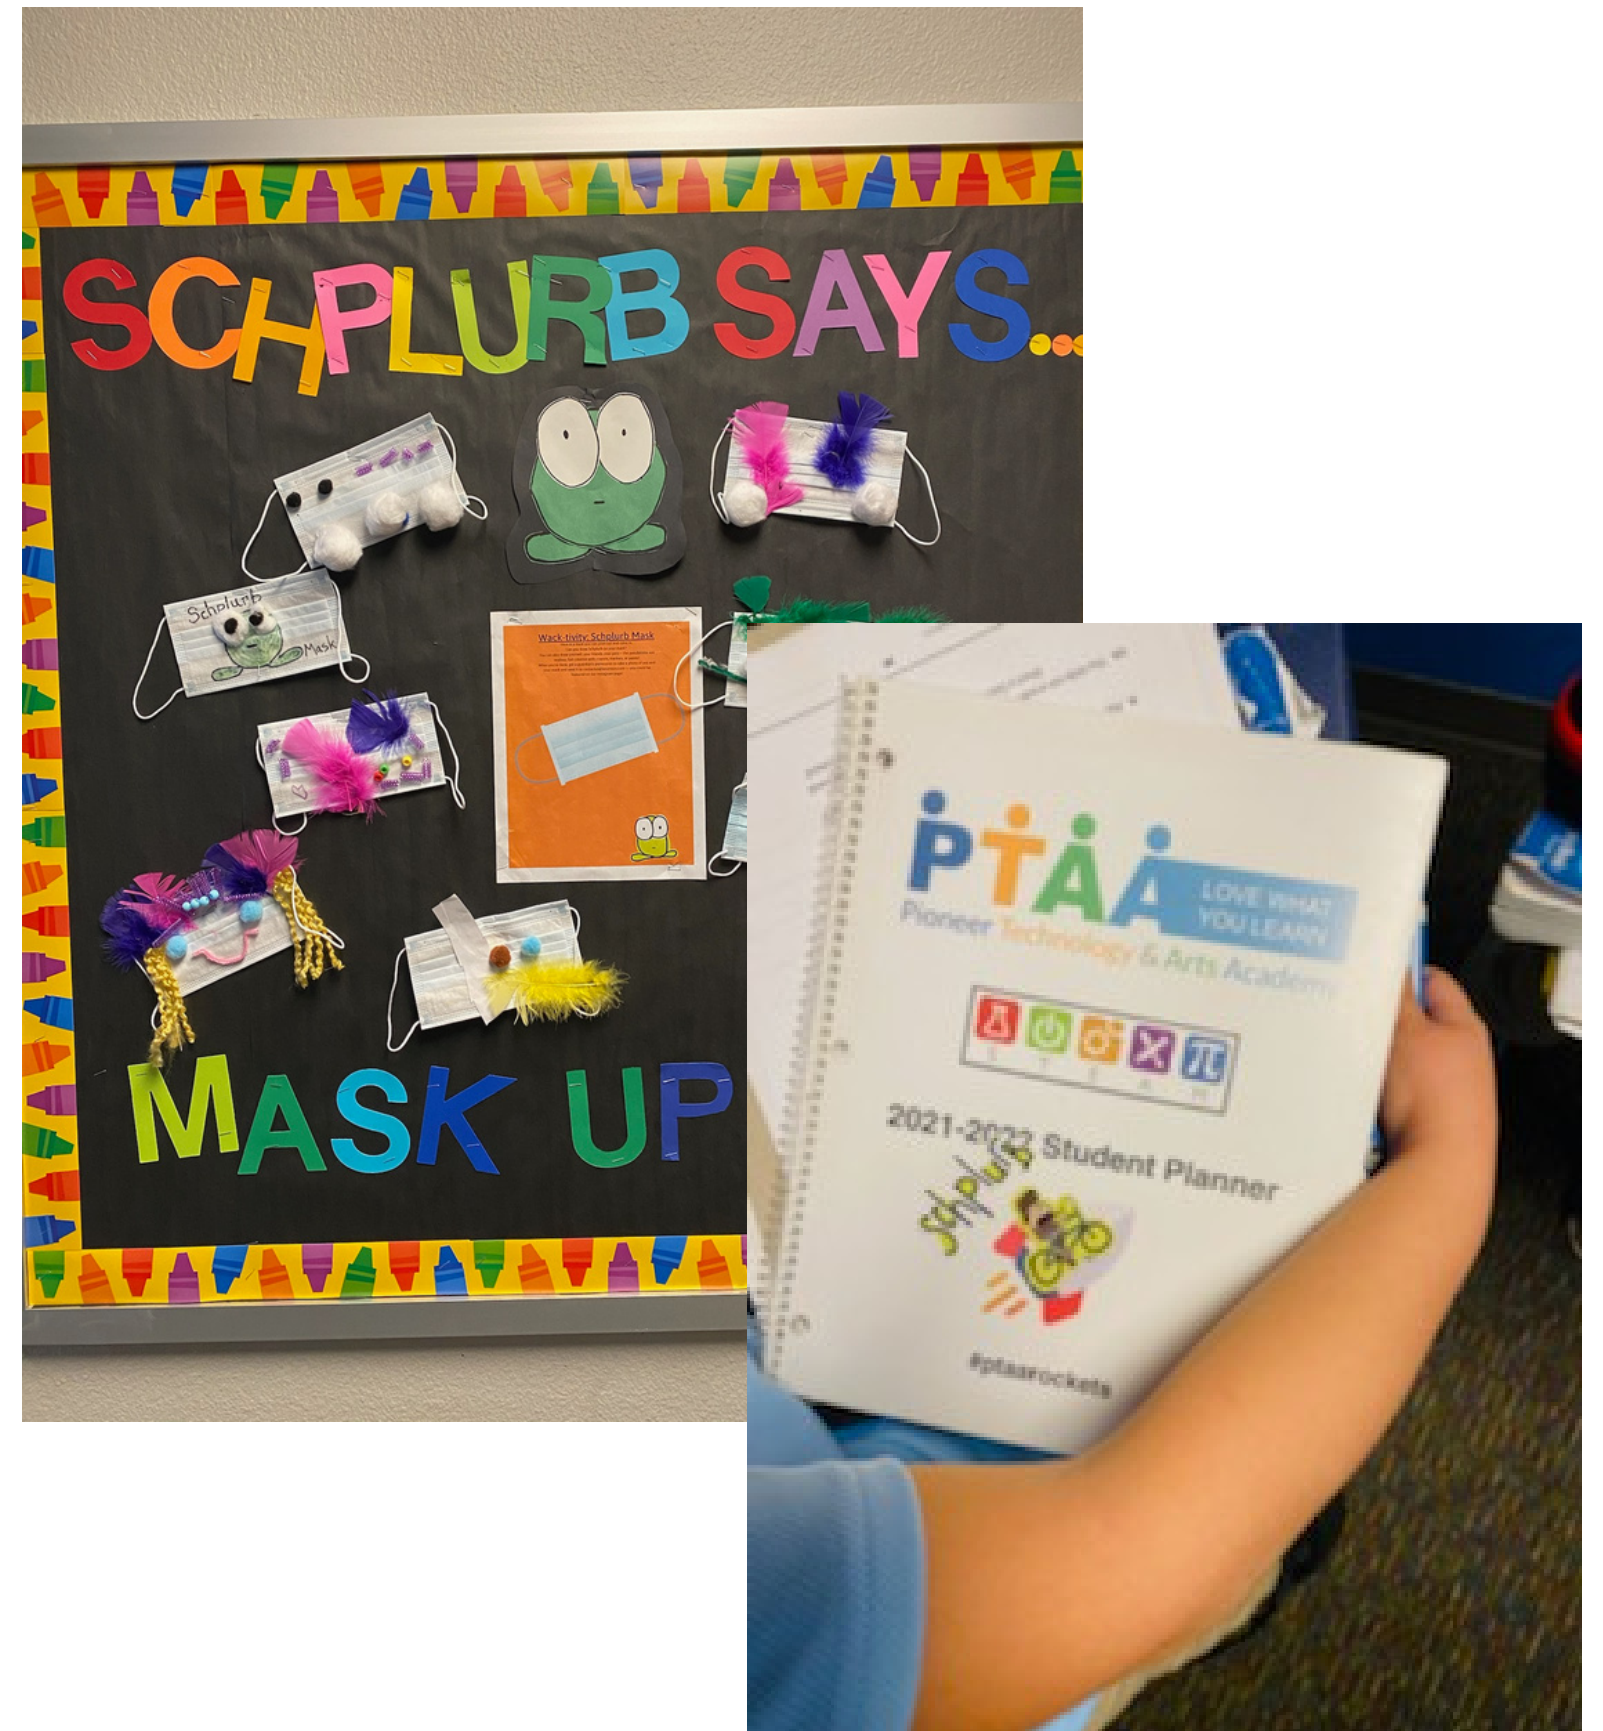

WELCOME TO WEZMORE

We've spent the last few years developing a fully experiential, story driven method of learning that combines art, technology, and leading SEL practices. Thanks to the help of our partner schools , we were able to do this successfully and go above and beyond what we imagined. We enjoy making custom solutions for all different kinds of schools, and here are our offerings.

CURRICULUM

A fully-loaded, online curriculum that helps teachers as much as it helps kids. Comes completely *done-for-you* with lesson plans, instructional videos, and much more. Included is a data visualization platform for parents and teachers on students feelings, including alert systems for when a student isn't feeling their best. We've designed the curriculum to be as hassle free as can be, and will implement into any classroom setting seamlessly.

FUN VIDEOS & MORE!

WEZMORE STORY

All along the way, your students will learn about our unique multi-year storyline that has been in development for years. Your kids will laugh and learn along with the many wacky characters in the Wezmore world, and get visits from them in person and through livestreams.

FEELINGS BOXES

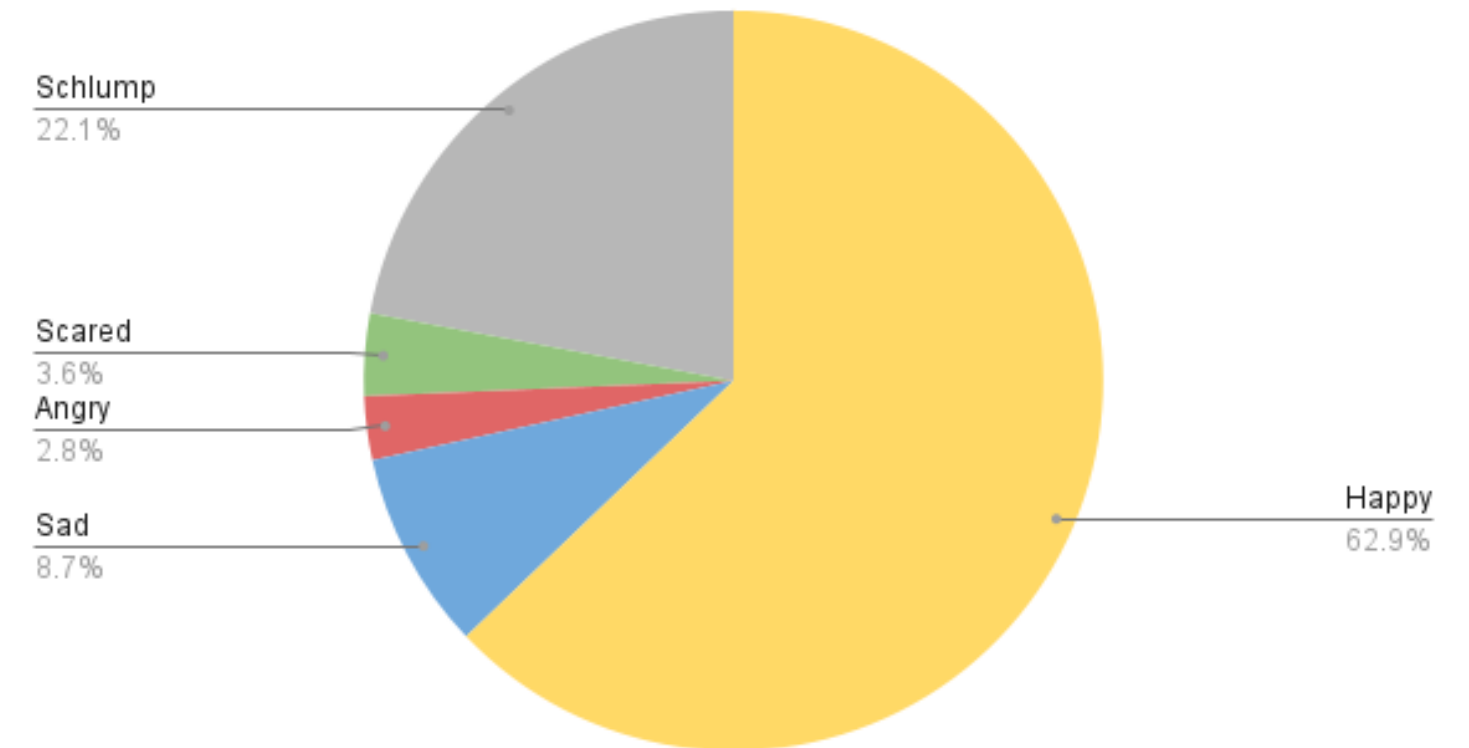

One of the biggest challenges a teacher faces daily is being able to focus on a single child that needs help while still maintaining their classroom. Our Feelings Box makes it easy for kids to record their feelings whenever they want, and just as easy for teachers to get trends on this information through our digital suite. We will be supplying each classroom with one of these, and five more per school to put in central locations.

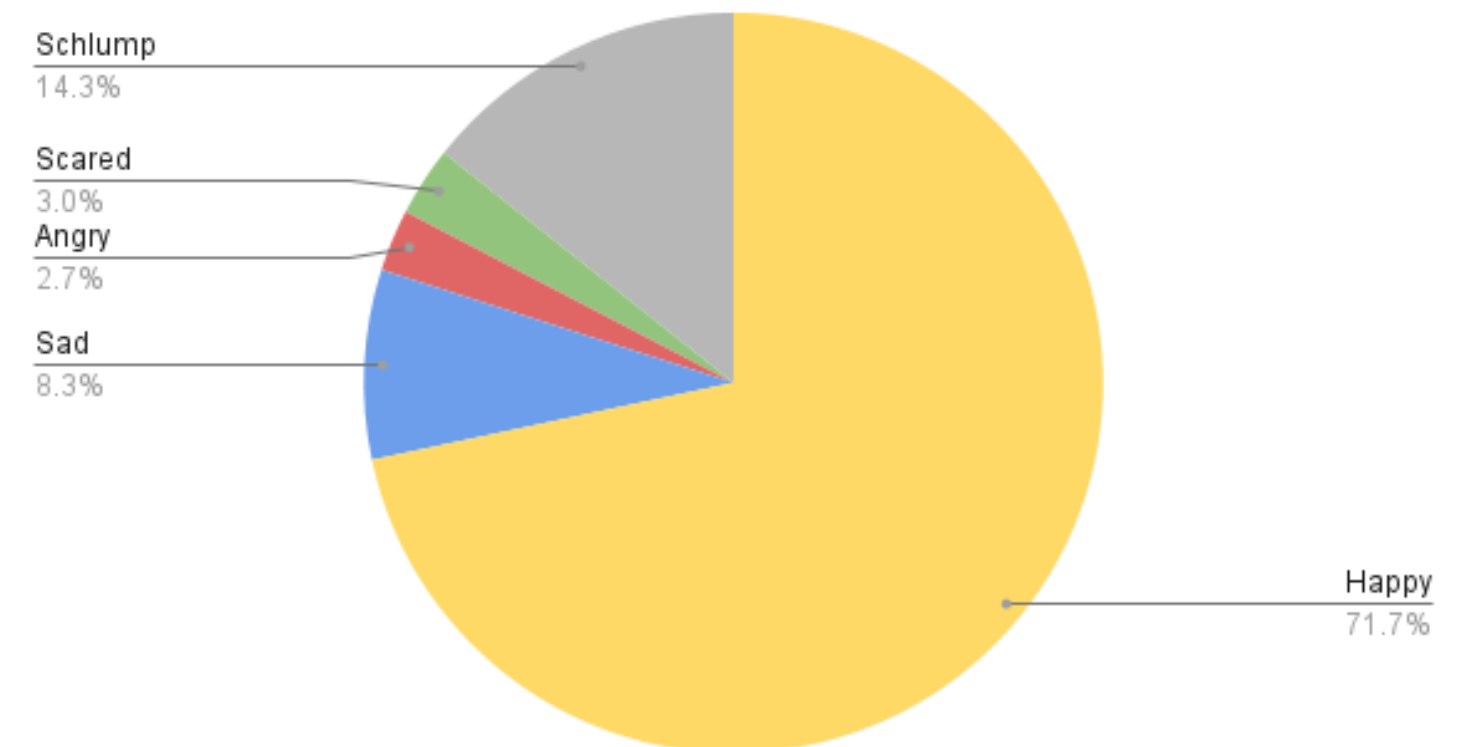

ALL-IN-ONE ONLINE SUITE

Our Wezmore webapp gives parents and teachers the ability to view trends both at the individual student and classroom/school level. In addition to housing the curriculum itself, the suite can be used to connect metrics to lessons in order to see effects both inside and outside of the Wezmore curriculum. We're building a platform that does it all.

HYPE EVENTS

These are Wezmore's specialty, and we were happy to relaunch our Wezmore Concert Series in 2021-2022 post-COVID. Our package includes a beginning and end-of-the-year wrap up concert that activates teachers and students in the Wezmore world. Each one is led by Eddie Coker, our founder, who has been writing and performing children's music for the past 30 years. Here are some examples of what you'll be getting:

WEZMÖRE

LIVESTREAMS

In tandem with our concerts, we're happy to bring personalized livestreams to each campus that work with your teachers to make the Wezmore experience personalized and fun. We have the full capability to stream through Zoom, YouTube, and any other platform right to the classroom. Through our livestreams, we are capable of doing brain breaks, song and dance, meditation, and everything in between.

MAKEOVERS

Bring out your paintbrushes! Wezmore school makeovers are included in every package, and we had a great time designing the mural that went in PTAACS. Our makeovers are co-created with your art teachers and students to create a work of art that allows for children to own their own education. We also include stickerbombing, posters, and many other forms of decoration, all included.

PROFESSIONAL DEVELOPMENT

One of the hardest parts of implementing any new curriculum is the execution, and our professional development sessions will prepare your teachers for the upcoming year with the Wezmore Curriculum, as well as give them tools they can use when they're not feeling their best. Taking care of teachers is just as important as the students!
